

## The GBCOC HR Advantage

Free your business from the administrative hassles of HR, benefits and payroll with the HR Advantage program, brought to you by the Greater Boerne Chamber of Commerce.

### Get to know G&A Partners

- + G&A Partners has been a leading national human resources service provider for more than 20 years.
- + G&A Partners can deliver its expert HR services in two ways:
  - Through its administrative services organization (ASO) model, which is similar to a traditional business process outsourcing arrangement; or
  - Through its professional employer organization (PEO) model, which provides a more comprehensive HR solution.

Both models offer distinct advantages, and G&A clients can choose which model works best for their business' needs.

- + G&A Partners is one of the top ten largest privately held U.S. PEO firms, with more than 30,000 PEO employees nationwide.
- + Headquartered in Houston, Texas, G&A Partners has 10 offices across the U.S., Colombia and Costa Rica.

### Did you know? The average cost of managing administrative HR functions "in house" is \$2,000 per employee, per year.<sup>1</sup>

Now think about this: Organizations that outsource multiple HR functions to a single vendor **save an average of 32%** on those costs. Just imagine what your business could achieve with those savings.

That's why the Greater Boerne Chamber of Commerce has partnered with **G&A Partners**, a leading human resources outsourcing company, to provide its members with access to its comprehensive HR solutions at a **special discounted rate** through its HR Advantage program.

### As part of the GBCOC HR Advantage program, members get access to:

- **Expert HR support** from a team of professionals on everything from recruiting to labor law compliance to unemployment claims.
- **Easy and error-free payroll** administration services with the help of a dedicated payroll specialist.
- **Exceptional benefit plan offerings** from top-tier carriers like Blue Cross Blue Shield, Guardian, Unum and more.
- **Easy-to-use HR technology** systems that help you automate tedious administrative tasks without the high cost of owning your own systems.
- **Workplace safety experts** that can help you identify potential hazards and provide a safer work environment.
